# UE Hymn

*Lyrics by Dionisio S. Salazar*

*Music by Felipe P. De Leon*

Pamantasan ka naming mahal  
Ilaw sa karimlan  
Buhay, lakas, dunong, dangal  
Pamantasan ka ng bayan.

Ang pangalan mo ay Lualhati  
At sandigan ka ng lahi  
Pamantasan ng Silangan  
Pamantasan ka naming mahal.

Pamantasan ka naming mahal  
Ilaw sa karimlan  
Buhay, lakas, dunong, dangal  
Pamantasan ka ng bayan.

Ang pangalan mo ay Lualhati  
At sandigan ka ng lahi  
Pamantasan ng Silangan  
Pamantasan ka naming mahal.

# Chairman's Message

I wish to extend greetings and appreciation to everyone in the UE Alumni Association Inc. and all UE alumni who have participated—as organizer, sponsor or attendee, or all of that—in this virtual UE Alumni Homecoming!

While your Alma Mater's now longtime institutional slogan, **Tomorrow Begins in the East**, has been around for less than 20 years, it has actually been the University's reason for being from the very start—and no truer evidence is there of this than you, dear UE alumni.

After all, the University of the East has been helping to carve bright tomorrows for generation after generation of learners from various regions of our homeland and even from certain other lands beyond our shores. And you are genuine proof of this in your own, respective rights, dear UE alumni, through all that you have achieved, have attained and the difference you have made to the lives of others—all due to the powerful combination of your personal strengths and your Warrior education.

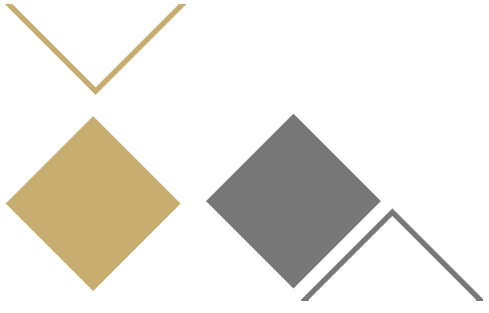

And your embodiment of tomorrow extends beyond that. For aside from how your aspired-for futures became bright realities, you are instrumental in the continuous realization of the East, of UE, as where tomorrow begins in two ways: as role models that help inspire future generations of your successors as UE learners and, more so, in your support towards efforts to help young Warrior learners to be able to attain the kind of red-and-white education that you had long or not so long ago.

On behalf of the UE community, let me express my profound appreciation to all of you for being accomplished, outstanding, exceptional alumni who, in big and small ways, make us in Lualhati's service perennially proud. And let me express my profound gratitude to you for all the support, towards your University and its students, that you have extended all this time and will further extend for many tomorrows to come.

***Maraming salamat at mabuhay kayo at ang inyong mga mahal sa buhay,*** Warrior Alumni!

**DR. LUCIO C. TAN**

Chairman of the Board  
and Chief Executive Officer

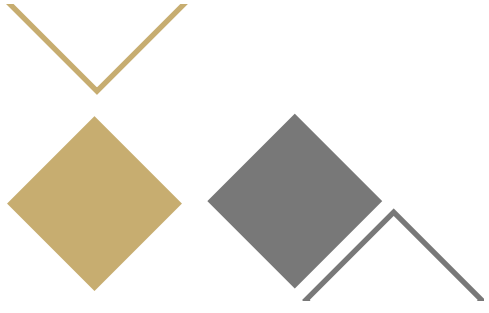

# Vice Chairman's Message

Greetings to the UE Alumni Association Inc. and all UE alumni on this momentous occasion!

We are in the midst of game changing times in our lives, given the continuing—but thankfully waning—pandemic, its impact on billions across our country and around the world. This has unprecedented and incalculable effects for all of us. It is my hope that its impact on you and your respective families, has been manageable— helped by the welcome speed of development and production of vaccines.

But there is another, good kind of “unbelievable” that is more fitting to cite here: you, our dear UE alumni! Representing all UE campuses, across degree programs and basic education levels, spanning batches of the last seven and a half decades, you are collectively and individually unbelievable—your enormity in terms of size, skill, strength, smarts and succession of accomplishments that inspire awe, incite applause and elicit appreciation and recognition all add to how unbelievable UE alumni are.

But it doesn't stop there. What's likewise unbelievable, in a very good way, is how, despite your having left the University to forge your respective bright tomorrows in your respective fields of endeavor and places under the sun, the University has never left you, so to speak. That is, no matter how far you've gone in life, UE has remained in you—a fact reinforced by the continued holding of alumni homecomings, even if on a virtual scale given these social-distancing times.

Indeed, it may seem unbelievable that your University of the East is now 75 years young, but this milestone is due to the dedication, hard work and tenacity of its founding fathers and of the countless individuals who had been, have been and are presently in its service. Conversely, the incredible traits of UE alumni individually and collectively are the result of much immeasurable dedication, hard work and tenacity over the years.

Thanks to all of you, dear UE alumni! May you keep being unbelievable in the great ways that you have been and will still be. Your incredible feats, gestures and Warrior love for your Alma Mater will help keep it going for an unbelievably long time to come!

**DAVID O. CHUA**

Vice Chairman of the Board

# UE President's Message

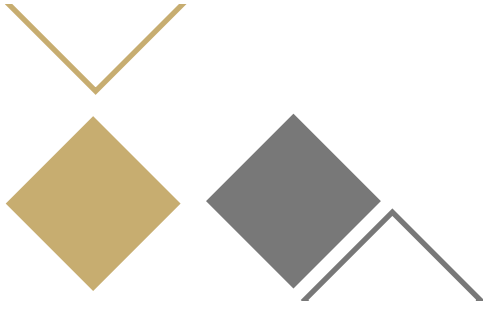

Good day, everyone! Or specifically: Good afternoon to those of you who are in the Philippines, and good morning or good evening to those of you who might be in other time zones!

We in your University of the East hope you are fine amid this ongoing unique time in all of our lives.

On behalf of your Alma Mater, dear UE alumni across all batches, programs and fields of endeavor, thank you very much for a lot of things!

First off, I echo the appreciation and gratitude of the UE Alumni Association Inc. for your attendance at this second ever virtual edition of the annual UE Alumni Homecoming! Your virtual presence here today does speak of your fondness for your school, or of your fond memories of having studied in this school, or of your fond kinship with your classmates, batchmates and schoolmates! Cheers to that!

Thanks to you are in order as well, for all that you have accomplished to make your respective families, your University, and even your country proud! All of your fulfilling positive achievements of various sorts, big or small as they may be, are the true measure of UE's formidability and reason for being—of being able to mold you and generations of learners past, present and yet to come into confident creators of bright tomorrows!

Most crucially this year, with UE marking her 75th Foundation Anniversary, a.k.a. her second diamond jubilee, big, big thanks to you who have paid heed and answered the call for contributions to the UE Alumni Scholarship Fund Drive, to help as many of your current successors as UE learners and aspiring workers, entrepreneurs and leaders to continue their Warrior education in this highly challenging time. Your donations to the fund drive to date—and still to come, we hope—will go a long, long way in fashioning UE students into becoming triumphant, inspiring professionals such as yourselves!

This, I wish to say, is the significance of this year's UE Alumni Homecoming theme. After all, through the Scholarship Fund Drive, you have "United to Empower"—you have been brought together, no matter your variances in background or location, for a singular cause, one with the immeasurable impact of empowering the beneficiaries of your invaluable contributions!

On that note, while my brief talk here is supposed to be an inspirational message, the reality is, it is *you*, dear UE alumni, who are *our* source of inspiration. Without you, one would wonder where UE would be. Without you, one could even wonder why and how UE can and should be.

And thankfully, even if it might have been a long while since you last set foot on the Manila Campus or the Caloocan Campus, or at UERM, you are, in a sense, never really far away. Conversely, thanks in considerable part to you, your University is never really far away either. *Andito pa rin si Lualhati, dahil nandiyan kayo.*

Let us keep going, keep celebrating and, most of all, keep *inspiring!*

On behalf of the entire UE community, thank you very much, Warrior Alumni! Take care *at mabuhay kayong lahat!*

**DR. ESTER A. GARCIA**

President  
and Chief Academic Officer

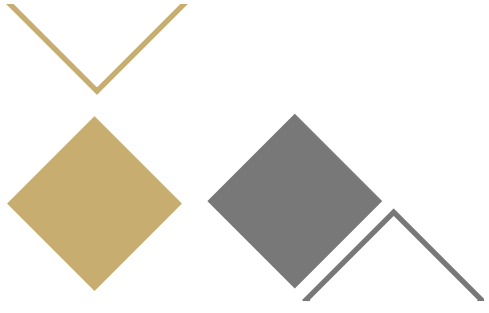

# UEAAI President's Message

The UE Board of Trustees, the UE Administrative Officers, President Ester Garcia, Chancellor Zosimo Battad, UE Faculty Members and Staff, fellow UE Alumni Association Officers, our Jubilarians, and our Awardees, friends ladies and gentlemen, good afternoon to all of you.

Here we are again to celebrate our **Annual Alumni Homecoming**. Actually, this is the 73<sup>rd</sup> Alumni Homecoming of our Alumni Association. Last year, we did this virtually and we thought that we could not pull it off. But now, we have learned the ropes; we are now all acquainted with technology. So, for the rest of this afternoon, expect that we will do the same.

Our theme for this afternoon's affair is **Unite to Empower**, that means, we, as UE Alumni should unite in order to get together and achieve higher goals for our Alumni Association.

I must report to you that even during this pandemic, your **Alumni Association** has been very active and has not stopped working. Among our projects this year, was first of all, the *launching of our scholarship loan project* together of course, with our Alma Mater the University of the East. Another project that we embarked on is the *sponsorship of our fellow alumni of scholars in our own university*. And then again, we have every week meeting of our board of directors of our alumni association. So, I must congratulate all our Officers, Committee Chairs to have been working so hard especially, in order to produce this Alumni Homecoming that we are now having. Congratulations should go to our **Over-all Chair, Ms. Connie Manansala**, and of course, all the Committee Chairpersons who have helped all of us, to attain a good presentation this afternoon. So, I'd like to welcome everybody and I hope that all of you would enjoy the rest of the afternoon with us.

I would like to greet everyone an advance Merry Christmas and a Happy New Year! Mabuhay ang UE! Mabuhay tayong lahat! Thank you.

**ATTY. ROSARIO S. BERNALDO**  
UEAAI President

# UE Alumni Virtual Homecoming Over-all Chairman's Message

Undeniably, many sectors of our society, most especially the educational institutions were caught flatfooted by this unprecedented global health crisis, leaving many of us utterly hopeless about our future. However, our Undying Endeavor to transcend the identity of a true warrior is bound to prevail – FOREVER.

In the face of trying times, we are even more entailed to exhibit the proud colors of red and white that epitomize our common bonds as comrades in one inclusive community. To gather and once again demonstrate the camaraderie which eventually fostered parallel journeys, connection turned into strong ties, and set new horizons that will all rise in the East.

Now, we are gathered, although virtual, to look back to our Alma Mater and reconnect with our friends and listen to their stories.

Finally, we firmly believe that through this occasion, the ties forged between us are further strengthened and will continue to foster better collaboration.

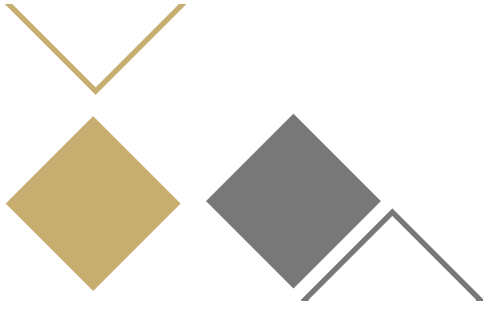

Fellow alumni, on behalf of the University of the East Alumni Association and all the hardworking men and women behind this momentous event, welcome to the 73<sup>rd</sup> UE Alumni Homecoming. We hope that you will enjoy what we have prepared for you.

Mabuhay ang UE!

**MS. CONSUELO D. MANANSALA**

# OUTSTANDING JUBILARIAN

ST. MEMORIA MEDICAL CENTER  
COLLEGE OF NURSING

UNIVERSITY  
OF THE EAST

## OUTSTANDING JUBILARIAN 2021

---

### ENGR. ROLANDO B. SAN ANDRES, MSCE

Bachelor of Science in Civil Engineering, 1976

**I** was admitted in the UE-Manila College of Engineering year 1971, with SN 329479. Within 5 year course in Civil Engineering, I'm just an average student with no Honors; never gotten in a dean's list, not ever been a scholar, neither had been special to the eyes of our professors, and suffered some back subjects, incidental and mental lapses as well. Some of my batch mates could attest and viewed me how studious I was. My persistent attitude being a serious student favored me to finish the Bachelor's degree in due time and pass the Civil Engineering board exam in one take.

Frankly speaking, I don't have much of intellectual capacity to store so much in my brain in the past school days that served to gain the previous and granted me with this present

recognition I received. The questions may cloud or maybe, bear in your mind, "What's the wonder/secret behind?". Truly, there is no secret. My mind inculcates... **everything can be learned.** The very first day I passed the board exam, being a person with ambition, I concentrically directed my career life for a goal. **I drew a plan and scheduled my career life in phases. I chose to specialize in Structural Engineering to where my mind, ability and feelings so dictate.** From actual practice year 1 to year 17, 5 itemized phases I listed in detailed - they are the needed essentials, design experiences that I have to store in my brain for future use. To summarize, these were the following phases:

Phase 1: To feel the technical work environment and pursue higher education/ advance studies;

- Phase 2: To work in a design firms with names in the community;
- Phase 3: To go international to explore advance design and construction technology;
- Phase 4: To look for a dignified firm in a managerial level;

**Phase 5: To establish my own company, the RSA and Associates – the final goal.**

So, the result was that, what has been written in a plan, was diligently done/carried out, and faithfully and graciously said goal was fulfilled as scheduled.

**Basically, you can manifest that anything is attainable if you have ambition in life.** So, I did make a plan. Inside that plan, factors that enhanced the development of my engineering design ability are: **attitude, motivation, diligence, patience and passion to work.**

**Diligence:** in a manner, that I am an explorer of facts, for example, I need to know the principle of an equation and how it was derived for full understanding.

**Attitude:** I am a hardworking and dedicated person with a “if you can do it I can do it too” attitude.

**Patience:** I never contented doing it good but best.

**Motivation:** I am moved to share my experiences, and what I have learned in life to others.

**Passion:** Being a collector of rare design books, copy pasting and compiling of essential design info, uploading and downloading interesting discoveries in civil/structural designs.

And said were true, I guess, these factors helped me developed my brain maturely well. Aside from the fact that I love so much my work as

a Structural Design Engineer, the most, I also never stopped studying, hence, further on research and applied design innovations.

And so, with all those efforts I had invested to myself, I was able to reach my dreams. But of course, with a balanced life also. Well, my thoughts of a healthy life? Always remember that we work for a living and not to sacrifice life in return. In short, your life is your utmost priority. **As we pursue greatness in whatever career path we choose from this day on, still, do not forget to live your life surrounded by love of friends, family, and most of all, love from God.**

My deepest and sincere thanks to the UE Alumni Association Inc., especially to our dearest colleagues in this Alma Mater who also stand and greatly supported my nomination for this Search

for Outstanding Jubilarian, as an Outstanding Structural Engineer of the Philippines.

My final reminder, words, advise to share... Balance Work versus Life: What you learned in life are hardware or tools for work to earn a living; health is a matter of high priority. Remember that, **"A healthy body is a healthy mind." Life is too complicated to think of making a simple living.** Age is just only a number, and never stop while you still have an active mind and body. My Plan 1, I have abovementioned has almost reached its peak; I am now heading, working on Plan 2, this time... in senior level.

Thank you so much. Mabuhay tayong mga taga-UE!

Abundant in vertical green spaces and options for leisure

ARTIST'S IMPRESSIONS

Exclusive address, yet easily accessible via public transport

Imagine your life beyond the usual. Beyond the ordinary. Beyond the everyday. That is a lifestyle taken to the next level—where the horizon of opportunities stretches further in front of you, and the path you walk on truly gets you places. And it all starts at **Park McKinley West**.

This is the tallest residential development in **McKinley West**, and it enjoys a sense of connectedness that only a Megaworld township can offer. In this modern address for self-starters and go-getters, there are no limits to what you can dream right now, and no boundaries to what you can do moving forward.
